Wedding Packages

Digital Photography

\$1600 for 6 hours wedding coverage, \$100 per each additional hour.

(8 hours = \$1800, 10 hours = \$2000, etc.)

Film Photography

\$1600 for 6 hours wedding coverage, \$100 per each additional hour.

+\$40 per roll of film.

*You may also choose to pay at cost for film photography services rather than at \$40 per roll.

You can choose to be billed separately for the purchase of film rolls and the fee of development by the lab. I use Indie Film Lab for development and scanning for best results. This would end up being much cheaper than \$40 per roll.

Not all film is equal. Each film stock gives a different look entirely and have different numbers of exposures. 35mm films have more exposures per roll than 120mm. Some of my favorite film stocks are fuji 400h, Portra 400, Portra 800, Ektar 100, Kodak gold 200 and Ilford Delta 3200.

Wedding Films (Video)

\$1300 for 6 hours wedding coverage, \$100 per each additional hour.

(8 hours= \$1500, 10 hours = \$1700, etc.)

Photography & Videography

In addition to a package of focus (photography or video), a minor focus of (photography or video) can be added for \$500

I am often asked to photograph and create videos for a wedding day without a second photographer or videographer. In this case I have to choose a main focus.

Do you want the majority of the wedding day to be photographed with some video captured throughout or would you prefer minimal photography with the focus on video? We can plan these details together specifically after we discuss your wedding day timeline and your desired results.

Packages are fully customizable and designed by you.
